Specification Summary

Brand	Asec
Product type	Fire Brigade Locks

Product Description

The Asec FB1 Double Handed 2 Lever Rim Lock is a reliable fire brigade deadlock designed specifically for use by the London Fire Service and other emergency services. It provides secure yet accessible locking for communal doors, dry risers, and utility areas where rapid emergency access is required.

This rim lock features a double-handed design, making it highly versatile and suitable for installation on both left and right-hand hung doors. It operates on a robust 2-lever mechanism keyed alike to the standard FB1 profile.

Please note that keys are not included with this lock and must be purchased separately. The lock is supplied complete with a matching strike plate and a single escutcheon for a clean, professional finish.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
