Specification Summary

Brand	Asec
Product type	Fire Brigade Locks

Product Description

The Asec FB2 Double Handed 2 Lever Rim Lock is a professional-grade fire brigade deadlock designed specifically for emergency service access and controlled entry points. Operated exclusively by a standard FB2 mortice key, this lock is widely used by the London Fire Service to secure communal areas, dry risers, and utility cupboards.

This rim deadlock features a double-handed design, meaning it can be installed on both left and right-handed doors without requiring manual adjustment. It is built with a robust 2-lever mechanism that ensures reliable, long-term operation.

Supplied as a complete boxed unit, it includes a strike plate and one escutcheon. Please note that keys are sold separately to allow integration into existing FB2 keyed-alike suites.

Technical Specifications

- **Brand:** Asec
- **Manufacturer Reference:** AS10597
- **Backset:** 44mm
- **Case Depth:** 100mm
- **Case Height:** 78mm

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
