Specification Summary

Brand	Asec
Product type	Fire Brigade Locks

Product Description

The Asec FB4 Reversible 4-Way Slamlock is a robust, surface-mounted rim lock designed specifically for use by the London Fire Service. This slamlock provides secure yet accessible entry to communal areas, dry risers, and utility cupboards, ensuring authorised fire brigade personnel can gain immediate access during emergencies.

Engineered for maximum versatility, this non-handed lock is fully reversible, allowing it to be fitted to either left or right-hand hung doors. It features a flanged case to ensure a neat, professional finish on the door face and is supplied with two strike plates and a single escutcheon. The lock is operated via a standard FB4 mortice key and features a 75mm backset from the edge of the door.

Please note that keys are not included with this product and must be purchased separately.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
