Nylon Ferrule

Specification Summary

Brand	Asec
Product type	Miscellaneous

Product Description

The Asec Ferrules are designed to provide a neat, professional finish to your door installation when using Asec Budget Locks. Suitable for both rim and mortice budget locks, these keyhole escutcheons line the keyway to protect the surrounding woodwork or door material from wear and tear caused by repeated key insertion, particularly from T-keys.

These easy-to-install ferrules are available in multiple materials, depths, and finishes to suit your specific functional and aesthetic requirements. Choose between a lightweight white nylon version featuring pre-drilled screw holes for secure surface mounting, or robust metal push-fit options in zinc plated or chrome plated finishes.

Please select your preferred finish, depth, and manufacturer reference from the options below to find the perfect match for your budget lock setup.

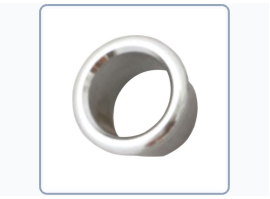

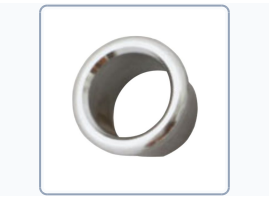

Technical Specifications

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
