Specification Summary

Brand	Asec
Product type	Photo luminescent

Product Description

The Asec Photoluminescent 'Fire Exit' Sign is an essential safety addition for any commercial or public building, designed to clearly mark emergency evacuation routes. In the event of a fire or power failure, standard emergency signage can easily become obscured by smoke, poor lighting, or complete darkness. This sign features a high-quality photoluminescent (glow-in-the-dark) finish, ensuring it remains highly visible to guide occupants safely to safety even in total blackout conditions.

Constructed from durable, semi-rigid PVC, the sign is designed for long-lasting performance. It features a convenient self-adhesive backing, allowing for quick, hassle-free installation on most clean, flat surfaces without the need for screws or additional fixings.

This sign is available in both Left Hand and Right Hand configurations to suit your specific escape route layouts. Please select your required handedness, manufacturer reference, and barcode from the options below.

Technical Specifications

- **Brand:** Asec
- **Legend:** Fire Exit
- **Finish:** Photoluminescent
- **Material:** Semi-rigid PVC
- **Mounting:** Self-adhesive backing
- **Dimensions:** 200mm (H) x 300mm (W)

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
