## Product Description

The Asec Fire Exit PVC Self Adhesive Sign is an essential safety sign designed to provide clear, high-visibility directional guidance during an emergency evacuation. Featuring the universally recognised green safe-condition background with white text and symbol, it ensures immediate understanding for building occupants, staff, and visitors.

These signs are British Standard compliant, making them ideal for commercial, industrial, and public premises undergoing fire risk assessments or health and safety audits. Manufactured from durable semi-rigid PVC, they resist moisture and wear, maintaining a professional and flat appearance over time. Installation is quick and tool-free thanks to the strong self-adhesive backing, allowing secure mounting on most clean, smooth surfaces.

This sign is available in multiple legend options, including a down arrow, left arrow, right arrow, or no arrow. Please select your required legend and manufacturer reference from the options below to suit your specific escape route layout.

## Technical Specifications

- **Brand:** Asec
- **Material:** Semi-rigid PVC
- **Dimensions:** 200mm x 300mm
- **Finish:** Green
- **Mounting:** Self-adhesive backing
- **Compliance:** British Standard compliant
- **Pack Quantity:** 1

## Brand Profile

Asec

**ASEC** is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
