Specification Summary

Brand	Asec
Product type	Photo luminescent

Product Description

The Asec Photoluminescent Fire Extinguisher Sign is a high-visibility safety sign designed to clearly identify the location and type of firefighting equipment. This specific sign features a "CO2" legend, making it ideal for positioning next to carbon dioxide fire extinguishers in commercial, industrial, or public premises.

Manufactured from durable PVC, the sign is equipped with a strong self-adhesive backing, allowing for quick and straightforward installation on most smooth, clean surfaces without the need for tools or drilling. Its photoluminescent (glow-in-the-dark) finish ensures that the sign remains highly visible even in the event of a sudden power failure or in low-light emergency conditions, helping occupants quickly locate the correct fire safety equipment.

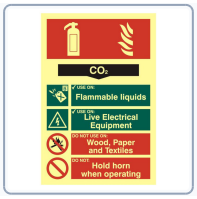

Technical Specifications

- **Brand:** Asec
- **Manufacturer Reference:** AS4701
- **Material:** PVC
- **Finish:** Photoluminescent
- **Legend:** CO2
- **Width:** 200mm
- **Height:** 300mm
- **Weight:** 100g
- **Mounting:** Self-adhesive backing
- **Pack Quantity:** 1

Key Features

- **Emergency Visibility:** Photoluminescent finish glows in the dark to ensure the sign remains visible during power outages or smoky conditions.
- **Clear Identification:** Features a distinct CO2 legend to help occupants quickly identify the correct extinguisher type.
- **Durable Construction:** Made from hardwearing PVC designed to withstand everyday environmental exposure.
- **Easy Installation:** Self-adhesive backing allows for quick, tool-free mounting on flat, clean surfaces.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
