Specification Summary

Brand	Asec
Product type	Fire Equipment

Product Description

The Asec Fire Extinguisher PVC Self Adhesive Sign is a high-visibility fire safety sign designed to clearly identify the location and type of fire extinguisher available on your premises. Essential for maintaining health and safety compliance in commercial, industrial, and public buildings, these signs ensure rapid recognition during an emergency.

Manufactured from durable, semi-rigid PVC, these signs are built to withstand daily wear and tear in busy environments. They are printed using UV-resistant ink to prevent fading and maintain long-term clarity, even when exposed to bright indoor lighting or direct sunlight. Installation is quick and effortless thanks to the high-grab self-adhesive backing, which bonds securely to smooth surfaces such as walls, doors, and extinguisher cabinets without the need for drilling or fixings.

These signs are available with multiple legend options, including **Water**, **Foam**, and **Dry Powder**. Please choose your required legend and corresponding manufacturer reference from the options below to ensure you receive the correct sign for your safety equipment.

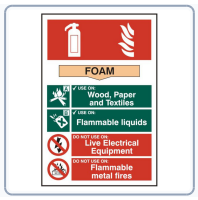

Technical Specifications

- **Brand:** Asec
- **Material:** Semi-rigid PVC
- **Backing:** High-grab self-adhesive
- **Width:** 200mm (20cm)
- **Height:** 300mm (30cm)
- **Pack Quantity:** 1
- **Weight:** 64g
- **Available Legends:** Water, Foam, Dry Powder (please select from the options below)
- **Manufacturer References:** AS4683, AS4684, AS4686 (please select from the options below)

Key Features

- **High Visibility:** Bold colours and clear graphics ensure rapid recognition of fire extinguisher stations during an emergency.
- **UV-Resistant Ink:** Printed with high-quality ink that resists fading, preserving long-term clarity and compliance.
- **Durable PVC Construction:** Robust semi-rigid PVC material resists scuffing and wear in busy environments.
- **High-Grab Adhesive Backing:** Quick and secure peel-and-stick installation on smooth surfaces without the need for tools or fixings.
- **Multiple Options Available:** Choose from Water, Foam, or Dry Powder legends to match your specific fire safety equipment.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
