Product Description

The Asec First Aid Box Sign is a clear and highly visible safety sign designed to mark the location of first aid boxes or kits in commercial, industrial, or public premises. Featuring a universally recognised green background with bold white text, this sign ensures that essential medical supplies can be located quickly during an emergency.

Manufactured from durable, high-quality self-adhesive PVC, this sign is incredibly easy to install. It can be quickly applied to any clean, dry, and flat surface - such as doors, walls, cupboards, or the first aid box itself - without the need for additional fixings, screws, or tools. Measuring 300mm x 200mm, it provides excellent visibility from a distance while maintaining a neat and professional appearance.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
