Specification Summary

Brand	Asec
Product type	Asec

Product Description

The Asec Blue Proximity Fob (AS10641) is designed specifically for use with the Asec One combined keypad and proximity access control system (AS10640). This compact and lightweight fob provides a reliable, contactless solution for managing entry to secure areas, making it ideal for residential and commercial single-door access control setups.

Equipped with an EM chipset, the fob offers quick and seamless reader response. For ease of administration and tracking, each fob is printed with a unique identification number. It features a robust blue casing with a pre-punched slot, allowing users to securely attach it to keyrings, lanyards, or badge clips for convenient daily carrying.

Whether you are adding new users to your system or replacing lost tokens, this genuine Asec proximity fob ensures hassle-free compatibility and dependable performance.

Technical Specifications

- **Brand:** Asec

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
