Specification Summary

Brand	Asec
Product type	Pull

Product Description

The Asec Front Fix Cranked Pull Handle is a robust and stylish door handle designed to withstand the demands of busy, high-traffic public areas. Featuring an offset, cranked design, this pull handle provides comfortable hand clearance and ease of use, making it an ideal choice for commercial properties, offices, and public buildings.

Constructed with a high-quality polished brass finish, it offers both durability and a classic aesthetic. The handle is designed for straightforward face fixing (front fixing), allowing for quick and secure installation directly onto the door surface.

This pull handle is available in lengths of 22.5cm and 30cm, with weights of 510g and 1.5kg respectively. Please select your preferred length and manufacturer reference from the options below to suit your specific door requirements.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
