Specification Summary

Brand	Asec
Product type	Slim Line

Product Description

The Asec Fully Adjustable L Bracket is specifically designed to suit slimline magnetic locks (mag locks), providing a highly adaptable mounting solution for access control systems. Thanks to its innovative sliding plate design, this bracket facilitates infinite adjustments and precise positioning of the mag lock. This ensures that the magnet can be easily and perfectly lined up with the armature plate, guaranteeing optimal holding force and reliable operation.

Constructed for durability and ease of use, the bracket features an anti-tilt mechanism to maintain stability and alignment over time. It is straightforward to install, making it a popular choice for installers looking to save time on

site while achieving a professional finish.

Please note that this product includes the L bracket and sliding plate assembly only; the slimline magnetic lock itself is not included and must be purchased separately.

Technical Specifications

- **Brand:** Asec
- **Manufacturer Reference:** AS10586
- **Barcode:** 5055120759166
- **Width:** 300mm
- **Depth:** 55mm
- **Weight:** 732g
- **Pack Quantity:** 1
- **Weather Resistant:** No (suitable for internal use)
- **Compatibility:** Suits Slim Line Magnets (excluding magnet)

Key Features

- **Sliding Plate:** Allows for infinite adjustments and precise positioning of the mag lock.
- **Perfect Alignment:** Ensures the magnet lines up easily and perfectly with the armature plate.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
