Specification Summary

Brand	Asec
Product type	Furniture Lock

Product Description

The Asec Furniture Lock Strike Plate is a robust and reliable solution designed to work seamlessly with both Asec and Lowe & Fletcher (L&F) furniture locks. Ideal for securing cabinets, cupboards, and drawers, this strike plate provides a secure latching point to ensure your furniture locks function smoothly and effectively.

Manufactured from solid metal, this strike plate is built to withstand daily wear and tear while maintaining its structural integrity. It features a clean silver finish that blends discreetly with most furniture styles and hardware. For a straightforward installation, the plate comes pre-drilled with two screw holes, allowing you to mount it quickly and securely to wooden furniture frames. Whether you are replacing an old strike plate or installing a new furniture lock system, this Asec strike plate offers a dependable, high-quality fit.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
