Specification Summary

Brand	Asec
Product type	Furniture Lock

Product Description

The Asec Furniture Pedestal Lock (AS9949) is a reliable and easy-to-install locking solution designed specifically for office pedestal furniture and multi-drawer wooden cabinets. Operating with a 180-degree turn, the key rotates the tail bar to actuate the cabinet's internal locking mechanism, securing multiple drawers simultaneously.

With its push-fit cylindrical design and square face, this lock is straightforward to fit, utilising a secure spring C-clip fixing from the rear. It is supplied keyed to differ with two keys as standard, making it ideal for individual desk security. For larger office environments or facilities management, the lock is master-keyable to the Lowe & Fletcher (L&F) 18 Series (M18), allowing authorised master keys to operate the lock. Finished in polished chrome plating, it offers a clean, professional look that blends seamlessly with modern office decor.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
