Specification Summary

Brand	Asec
Product type	Hasp & Staple

Product Description

The Asec Galvanised Multi Link Concealed Fixing Hasp & Staple is a highly versatile and robust security solution designed to protect gates, sheds, outbuildings, and cabinets. Featuring a weather-resistant galvanised finish, this hasp and staple is built to withstand the elements, making it ideal for both indoor and outdoor applications.

For enhanced security, the hasp is designed with concealed fixings. When the hasp is closed and locked with a padlock, the mounting screws are completely covered, preventing intruders from tampering with or unscrewing the fixture. On larger models (from 155mm upwards), the hasp features a multi-link hinged design, allowing it to bend around corners or fit awkward angles and uneven surfaces.

This product is available in a range of lengths, widths, weights, and packaging options to suit different installation requirements. Please choose your preferred options from the selection below.

Technical Specifications

- **Brand:** Asec
- **Finish:** Galvanised
- **Length:** 75mm - 23cm (multiple options available; please select below)
- **Width:** 29mm - 47mm (multiple options available; please select below)
- **Weight:** 145g - 498g (multiple options available; please select below)
- **Hasp Hinge Details:**
  - 155mm hasp: Hinged at 70mm
  - 195mm hasp: Hinged at 70mm and 105mm
  - 230mm hasp: Hinged at 70mm, 105mm, and 145mm
- **Fixings:** Supplied complete with fixings
- **Packaging:** Bagged, Boxed, or Visi (multiple options available; please select below)

Key Features

- **Concealed Fixings:** Screws are fully hidden when the hasp is closed, preventing unauthorised removal and tampering.
- **Multi-Link Hinged Design:** Larger sizes (155mm and above) feature multiple hinge points to easily fit around corners or awkward angles.
- **Corrosion Resistant:** Galvanised finish provides excellent protection against rust and harsh weather conditions.
- **Versatile Security:** Ideal for securing sheds, gates, doors, and storage lockers.
- **Complete Kit:** Supplied with all necessary fixings for a straightforward installation.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
