Specification Summary

Brand	Asec
Product type	Secondary Security

Product Description

The Asec Garage Door Locking Kit (AS1999) is a rugged, high-security solution designed to protect up-and-over or sectional garage doors. This heavy-duty pair of security bolts provides a robust physical barrier against unauthorised entry, making it an excellent choice for securing domestic or commercial garages.

Engineered for versatility, these bolts can be installed either vertically or horizontally on both timber and metal garage doors up to 38mm in thickness. For added convenience, the kit is keyed alike off-the-shelf, meaning you can operate multiple locks or doors using the same key.

The kit comes complete with two security locks, three keys, security escutcheons, and all the necessary fixings for a straightforward installation on wood or metal.

Technical Specifications

- **Backset:** 95mm
- **Case Length:** 165mm
- **Case Width:** 47.5mm
- **Finish:** Black
- **Keys Supplied:** 3
- **Maximum Door Thickness:** 38mm

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
