Specification Summary

Brand	Asec
Product type	Nightlatches

Product Description

The ASEC Garage Double Deadlocking Euro Latch Centre Case is a robust and reliable locking solution designed specifically for roller or side-hinged garage doors. Offering a practical blend of convenience and enhanced security, this centre case features a spring-loaded latch alongside a double deadlocking mechanism to keep your garage secure.

This single-spindle unit is fully reversible, allowing for easy installation in the correct orientation regardless of door handing. It operates as a mortice nightlatch, with a passage latch that can be operated by either a key or a handle. For easy identification, the case features two small deadbolts positioned on either side of the latch. It is compatible with standard Euro profile cylinders (sold separately) and commonly used garage handles, making it an ideal choice for retrofitting or upgrading your existing garage door security.

Technical Specifications

- **Backset:** 65mm
- **Centres:** 72mm
- **Case Height:** 185mm
- **Case Depth:** 81mm
- **Case Width:** 16mm

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
