Specification Summary

Brand	Asec
Product type	Knob Furniture

Product Description

The Asec Georgian Mortice Knobs are a classic and elegant choice for traditional interior doors, featuring a decorative rope-edge pattern. Finished in high-quality polished brass, these knobs add a touch of period charm to any home or commercial property.

These mortice knobs are sprung, meaning they feature an internal spring mechanism that automatically returns the knob to its original position after turning. This helps to prevent sagging and reduces wear on your door latch. They are supplied as a complete pair, including an 8mm spindle and all the necessary fixing screws for a quick and straightforward installation.

These knobs are available in different packaging styles (Boxed or Visi-packed), with slight variations in weight and manufacturer reference. Please choose your preferred options from the selection below.

Technical Specifications

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
