Product type	Lever Furniture

Product Description

The Asec Georgian Round Rose Lever Latch Furniture offers a classic, elegant touch to traditional and period-style interior doors. Featuring a decorative Georgian-style border on a 64mm round rose, this lever handle set is designed to complement classic home decor while providing reliable, everyday operation.

Crafted with a high-quality polished brass finish, these handles are supplied as a pair and are suitable for internal doors requiring a latch-only mechanism. The set comes complete with a standard 8mm spindle and all necessary wood fixing screws, ensuring a straightforward installation process. Whether you are replacing old door furniture or completing a new installation, this Asec lever set provides an attractive and robust solution.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
