Product Description

The Asec Half Cut Out Cam Furniture Pedestal Lock is a reliable solution designed specifically for securing office pedestal furniture, drawers, and cabinets. Thanks to its single flange fixing point, this lock is ideal for narrow applications where space is limited.

Operating with a 180-degree turn, the key rotates the half cut-out cam tail bar to engage or disengage the internal locking mechanisms of your furniture. This makes it highly compatible with standard locking bars. The lock features a high-quality chrome-plated finish that blends seamlessly with modern office decor and comes supplied with two keys for immediate use.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
