Specification Summary

Brand	Asec
Product type	Tee

Product Description

The Asec Heavy Duty Tee Hinge is a robust, reliable hardware solution designed specifically for heavier gates, shed doors, and external entryways. Built to withstand the demands of outdoor use, these heavy-duty T-hinges feature a durable galvanised finish that provides excellent resistance against rust, corrosion, and harsh weather conditions.

Sold in pairs, these hinges are supplied loose and are available in a range of lengths from 30cm to 45cm to suit various door and gate sizes. Please select your required length, weight, and manufacturer reference from the options below to find the perfect fit for your installation.

Technical Specifications

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
