Specification Summary

Brand	Asec
Product type	Full Stainless Steel

Product Description

The Asec Infra-Red No Touch Exit Button DRB-IR is a modern, hygienic door release solution designed for access control systems. By utilising infrared technology, this button allows users to activate the sensor and operate the lock simply by waving their hand in front of it. This touch-free operation is ideal for high-traffic environments where maintaining hygiene is crucial, such as healthcare facilities, offices, and public buildings, or for situations where

users may have their hands full.

Crafted with a durable stainless steel faceplate, this exit button features change-over contacts and offers both an adjustable range and an adjustable timer to suit your specific installation requirements.

This product is available in both flush and surface fitting options, with weights of either 200g or 300g depending on the model. Please choose your preferred fitting, manufacturer reference, weight, and barcode from the options below.

Technical Specifications

- **Brand:** Asec
- **Width:** 85mm
- **Height:** 85mm
- **Depth:** 30mm
- **Finish:** Stainless Steel
- **Fitting:** Flush or Surface (please choose from the options below)

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
