Specification Summary

Brand	Asec
Product type	Asec

Product Description

The Asec Internal/External Heavy Duty Keypad is a robust and stylish digital access control solution designed for high-traffic environments. Built to withstand demanding conditions, this vandal-resistant keypad features a durable metal housing with a stainless steel faceplate and keys, making it ideal for both indoor and outdoor installations.

With support for up to 100 users and over 1 million PIN combinations, it offers flexible and secure access management. The keypad is straightforward to program directly via the keys and features backlit buttons for easy operation in low-light conditions. It also includes a dual-relay output, a latching feature, and an adjustable output timer, providing versatile control over your entry points. Fixings are supplied for convenient wall or post mounting.

Technical Specifications

- **Brand:** Asec
- **Manufacturer Reference:** AS11611
- **Barcode:** 5055120788265
- **Input Voltage:** 12/24V DC
- **Current Consumption:** Max 150mA
- **Width:** 79mm
- **Depth:** 54mm
- **Height:** 125mm
- **Weight:** 518g
- **User Capacity:** Up to 100 users
- **Programming:** Via keypad
- **Pack Quantity:** 1

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
