Specification Summary

Brand	Asec
Product type	Fire Door & Access

Product Description

The Asec 'Keep Locked' mandatory access sign is designed to clearly communicate essential safety and security instructions in commercial, public, and residential buildings. Featuring a universally recognised blue circle with white text denoting the instruction "Keep Locked", this sign ensures that users are aware of the mandatory action required to maintain security or fire safety compliance.

Constructed from durable, semi-rigid PVC, this sign is built to withstand everyday wear and tear in busy environments. It features a high-quality self-adhesive backing, allowing for quick, tool-free installation on any clean,

flat surface, such as doors, walls, or partitions. It is an ideal choice for fire doors, restricted access areas, and service cupboards.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
