Product Description

The Asec 'Keep This Door Locked When Not In Use' sign is a mandatory safety sign designed to ensure security and fire safety compliance in commercial, public, and residential buildings. Featuring the standard blue and white mandatory action design, this sign clearly instructs users to keep designated doors locked when they are not being accessed.

Constructed from high-quality, semi-rigid PVC, this sign is durable and built to last. It features a self-adhesive backing, allowing for quick and easy installation onto doors or adjacent walls without the need for tools, screws, or drilling. Measuring 200mm by 50mm, it is highly visible while remaining compact enough to fit neatly on standard door frames or panels.

This sign is an essential addition for any facility looking to maintain strict access control and adhere to fire safety regulations.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
