Specification Summary

Brand	Asec
Product type	Key Cabinet

Product Description

The Asec Key Cabinet with Electronic Digital Lock is a secure and highly practical key management solution designed for homes, offices, and commercial premises. Featuring a robust steel construction with a durable cream powder-coated finish, this cabinet provides reliable protection and efficient organisation for your keys.

Equipped with an external multi-functional digital lock, it eliminates the need for physical keys to access the cabinet, making it ideal for multi-user environments. Inside, the cabinet features adjustable, colour-coded hook bars and comes complete with matching colour-coded key tags and a removable control index card to help you keep track of your keys effortlessly.

This key cabinet is available in multiple sizes to accommodate either 20 or 35 keys, with varying heights, widths, and weights to suit your specific storage needs. Please select your preferred hook capacity, dimensions, and manufacturer reference from the options below.

Technical Specifications

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
