Specification Summary

Brand	Asec
Product type	British Standard

Product Description

The Asec Kite BS Auto Deadlocking Nightlatch is a high-security rim lock designed to provide robust protection for inward-opening solid or glass-panelled wooden doors. This insurance-approved nightlatch automatically deadlocks upon closing, making it virtually impossible for intruders to force entry using a credit card or similar slipping methods.

For added security, particularly on doors with glass panels, the internal handle can be locked from the inside to prevent unauthorized operation if the glass is compromised. It also features a convenient snib function, allowing the bolt to be held in the withdrawn position when unrestricted access is needed. The lock is supplied with a high-security cylinder featuring an integral cylinder pull to protect against drilling, and offers over 30,000 key differs.

This British Standard nightlatch is available in multiple configurations to suit your door. Please select your preferred backset (40mm or 60mm), finish (Polished Brass, Polished Chrome, or Satin Chrome), and packaging type (Boxed or Visi) from the options below.

Technical Specifications

- **Brand:** Asec
- **Backset:** 40mm or 60mm (please select from the options below)
- **Bolt Throw:** 20mm
- **Standards:** BS 3621, BS EN 12209:2003, Secured by Design
- **Key Differs:** Over 30,000
- **Keys Supplied:** 3
- **Finishes Available:** Polished Brass, Polished Chrome, or Satin Chrome (please select from the options below)
- **Packaging:** Boxed or Visi (please select from the options below)
- **Weight:** 1.69kg

Key Features

- **Automatic Deadlocking:** Latch bolt automatically deadlocks upon closing to prevent "credit card" slipping entry.
- **Internal Lockable Handle:** Inside handle can be locked for enhanced security, ideal for glass-panelled doors.
- **Snib Function:** Allows the bolt to be held in the retracted position for convenient, temporary free passage.
- **Drill Protection:** Features an integral cylinder pull designed to protect the cylinder from being drilled.
- **Insurance Approved:** Conforms to British Standard BS 3621 to meet police and insurance security requirements.
- **Complete Kit:** Supplied with fixings, keep, cylinder, and 3 keys.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
