Specification Summary

Brand	Asec
Product type	Screw In

Product Description

The Asec Kite Screw In Cylinder is a high-security, Secured by Design (Police approved specification) screw-in cylinder designed to complement the Asec Kite range of Kitemarked euro double and key & turn cylinders. Because all cylinders in the Asec Kite range share the same key profile, they can be keyed alike for ultimate convenience across your property.

Constructed to resist common forced entry methods, this cylinder features a 6-pin mechanism with integrated security features. It is equipped with a BKP (Bump Key Protection) device as standard to resist bumping, a special driver profile to prevent picking, and a drill-resistant configuration.

This cylinder is available in multiple options to suit your security needs. Please choose from the options below to select your preferred manufacturer reference, barcode, pack quantity (available as a single cylinder or a pair), packaging (boxed or visi), and weight (240g or 480g).

Technical Specifications

- Cylinder Type: Screw In
- Cylinder System: Asec Kite

- Mechanism: 6 Pin
- Finish: Nickel Plated
- Standards: BS EN 1303:2005, Secured by Design
- Fire Tested: Grade B
- Keys Supplied: 3
- Thread Length: 27mm
- Dimensions: 29mm (H) x 34mm (W) x 29mm (D)

Key Features

- Secured by Design: Police preferred specification for enhanced security
- Bump Resistant: Fitted with a BKP device as standard to prevent lock bumping
- Pick Resistant: Special driver profile resists picking attempts
- Drill Resistant: Robust internal configuration protects against drilling
- Keyed Alike Capability: Shares a profile with the Asec Kite range of euro double and key & turn cylinders, allowing them to be keyed alike
- Fire Tested: Grade B fire tested for peace of mind

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
