Specification Summary

Brand	Asec
Product type	Outside Access Device

Product Description

The Asec Knob Operated Outside Access Device (OAD) is designed to provide secure, key-controlled entry from the outside of a building while working in conjunction with Asec panic hardware. It allows the internal emergency exit device to be overridden, ensuring authorised users can gain entry without compromising emergency egress.

Engineered for reliability in all weather conditions, the device features an ergonomically designed knob with an improved grip for wet environments. It is highly versatile, supplied with fixings suitable for both timber and metal doors ranging from 40mm to 70mm in thickness. The unit comes complete with a Cisa Euro cylinder, which can easily be replaced or upgraded to integrate seamlessly into an existing master keyed system.

Technical Specifications

- **Brand:** Asec
- **Manufacturer Reference:** AS3108
- **Finish:** Silver Enamelled
- **Mechanism:** Euro Cylinder (Cisa Euro cylinder supplied)
- **Door Thickness Compatibility:** 40mm to 70mm
- **Handing:** Reversible (suitable for left or right-handed doors)
- **Width:** 55mm
- **Depth:** 87mm
- **Weight:** 1.24kg
- **Fixings:** Suitable for timber and metal doors

Key Features

- **Emergency Override:** Allows external access and override of internal Asec panic hardware.
- **Enhanced Wet-Weather Grip:** Knob design features an improved grip for reliable operation in wet conditions.
- **Master Key Compatible:** The supplied Euro cylinder can be easily replaced to suit master keyed systems.
- **Versatile Installation:** Supplied with all necessary fixings for both timber and metal doors.
- **Durable Finish:** Finished in a robust silver enamelled coating for long-lasting performance.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
