Product Description

The Asec 'Ladies' Polished Gold Effect Self Adhesive Sign is a sleek and contemporary signage solution, perfect for modern offices, commercial establishments, and public facilities. Featuring a mirror-like polished gold finish, this mini sign provides a premium aesthetic while remaining highly functional.

Measuring 200mm x 50mm, this compact sign is specifically designed for areas with space constraints where larger, bulkier signs would look impractical or unsightly. It is manufactured from durable, semi-rigid PVC, ensuring it remains robust and long-lasting in busy environments.

Installation is quick and hassle-free thanks to the self-adhesive backing. There is no need for screws, drilling, or complex tools - simply peel and stick the sign directly onto any clean, flat surface such as doors or walls.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
