Specification Summary

Brand	Asec
Product type	Dome

Product Description

The Asec Large Green Press To Exit Dome Button is a robust, high-visibility exit button designed for access control systems in both commercial and public environments. Featuring a large, easily operated green dome button mounted on a durable stainless steel plate, it provides a clear and accessible egress solution for users.

This unit is designed for flush mounting as standard, though a surface box is available separately if required. It is suitable for both internal and external installations, boasting an IP67 rating on the front face to protect against dust and water ingress. The button operates with a momentary action and is equipped with sealed Normally Open (N/O) and Normally Closed (N/C) contacts, offering versatile wiring options to suit your specific access control setup.

With its clear "Press To Exit" legend and heavy-duty construction, this Asec exit button is an ideal choice for high-traffic areas requiring a reliable and highly visible exit release.

Technical Specifications

- **Manufacturer Reference:** AS9867
- **Plate Finish:** Stainless Steel
- **Fitting:** Flush (surface box available separately)
- **IP Rating:** IP67 (front face only)
- **Input Voltage:** 12/24V DC
- **Contacts:** Sealed N/O & N/C (Normally Open & Normally Closed)
- **Operation:** Momentary
- **Legend:** Press To Exit
- **Width:** 85mm
- **Depth:** 37mm
- **Weight:** 950g

Key Features

- **High Visibility:** Features a large green dome button with a clear "Press To Exit" legend for easy identification.
- **Weather Resistant:** IP67 rating on the front face makes it suitable for both internal and external applications.
- **Durable Construction:** Built with a high-quality stainless steel plate and sealed contacts for long-lasting performance in demanding environments.
- **Flexible Installation:** Designed for flush mounting, with a surface box option available to suit different installation requirements.
- **Versatile Wiring:** Equipped with both Normally Open (N/O) and Normally Closed (N/C) contacts to integrate seamlessly with various access control systems.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
