Specification Summary

Brand	Asec
Product type	Tee

Product Description

The Asec Light Tee Hinge is a pair of light-duty T-hinges designed for lightweight doors, cupboards, gates, and various DIY projects. These hinges provide a reliable and smooth pivoting action, making them an excellent choice for domestic and light commercial applications where heavy-duty support is not required.

Available in multiple lengths ranging from 15cm to 30cm and in a choice of Black or Zinc Plated finishes, these hinges can be selected to match your specific aesthetic and functional requirements. They are supplied in pairs on a header card (visi pack), which is ideal for retail merchandiser displays or neat storage.

Please select your preferred finish, length, and manufacturer reference from the options below to find the perfect fit for your project.

Technical Specifications

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
