Specification Summary

Brand	Asec
Product type	Furniture Lock

Product Description

The Asec Lockable Hasp is a sleek and highly attractive alternative to a traditional padlock and hasp & staple combination. Perfectly suited for locking furniture such as office cupboards and cabinets, this lockable hasp provides a neat, integrated security solution without the need for a separate padlock.

Designed for ultimate convenience, the key can be removed in both the locked and unlocked positions. It is easy to install and comes complete with fixings and two keys, allowing you to secure your cupboards or lockers right away.

This lockable hasp is available in different sizes, with widths of either 75mm or 11.5cm (115mm) and weights of 75g or 125g. Please select your preferred size, weight, and manufacturer reference from the options below.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
