Product Description

The Asec Lockout Shell Case / Pouch is a protective zipped storage solution designed specifically for Lockout Tagout (LOTO) equipment. Featuring a durable polyester shell and a high-visibility red and white finish, this pouch ensures your essential safety devices remain organised, secure, and easily accessible when working on-site or storing equipment in a service van.

Clearly marked with the "Lockout Tagout" legend, this case allows for rapid identification during critical maintenance and service activities. It is an essential addition to any workplace safety toolkit, helping businesses meet standard practices and procedures to safeguard employees from unexpected machinery start-ups or hazardous energy releases.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
