Specification Summary

Brand	Asec
Product type	Lock Out Tag Out

Product Description

Ensure workplace safety and compliance with the Asec Lockout Tagout Tags. Designed for industrial, commercial, and maintenance environments, these tags clearly communicate isolation status to prevent the accidental operation of machinery or electrical equipment.

Each tag features the highly visible message 'This Equipment Has Been Locked Out' printed in bold black text on a bright yellow background. This high-contrast design ensures maximum visibility from a distance, alerting personnel to potential hazards immediately.

Manufactured from durable, wear-resistant polypropylene, these single-sided tags are built to withstand tough working conditions. They are printed using UV-resistant inks to prevent fading over time, making them suitable for a variety of environments. Additionally, each tag provides dedicated space for writing specific details, such as the date, time, and the name of the person carrying out the lockout procedure.

Supplied in a convenient pack of 10, these tags are an essential addition to any Lockout Tagout (LOTO) safety system.

Technical Specifications

- **Brand:** Asec
- **Manufacturer Reference:** AS11506
- **Barcode:** 5015397441263
- **Material:** Polypropylene
- **Finish:** Yellow & Black
- **Width:** 75mm
- **Pack Quantity:** 10
- **Weight:** 40g

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
