Specification Summary

Brand	Asec
Product type	Door Bar

Product Description

The Asec London Door Bar is a highly effective security solution designed to provide robust reinforcement against forced entry on inward-opening doors. Specifically engineered to work alongside rim locks and cylinder nightlatches, this heavy-duty door bar strengthens the vulnerable lock area, helping to resist impact attacks such as kicking or shoulder barging.

Featuring a specialized 'D'-shaped staple, the bar securely captures and reinforces the staple of your nightlatch, distributing force across the door frame rather than letting it concentrate on the lock alone. This makes it an ideal addition for both domestic and commercial properties seeking an extra layer of physical security.

To ensure a perfect fit for your existing setup, this door bar is available in a variety of configurations. It is offered in multiple handing options (including left hand, right hand, and reversible), various staple lengths (ranging from 80mm to 120mm external) and staple widths (ranging from 20mm to 35mm), and is designed to suit specific lock manufacturers such as Banham, Cisa, ERA, Ingersoll, Yale, or universal applications. Please select your required handedness, staple dimensions, manufacturer compatibility, and barcode from the options below.

Technical Specifications

- **Brand:** Asec
- **Finish:** White
- **Width:** 16mm
- **Weight:** 680g
- **Pack Quantity:** 1
- **Packaging:** Bagged
- **Handed:** Left Hand, Right Hand, or Reversible (please choose from the options below)
- **Staple Length:** 80mm External / 70mm Internal to 120mm External / 110mm Internal (please choose from the options below)
- **Staple Width:** 20mm to 35mm (please choose from the options below)
- **Suits Manufacturer:** Banham, Cisa, ERA, Ingersoll, Universal, or Yale (please choose from the options below)
- **Manufacturer Reference:** AS5006, AS5007, AS5008, AS5009, AS5010, AS5011, or AS5058 (please choose from the options below)
- **Barcode:** Multiple options available (please choose from the options below)

Key Features

- **Forced Entry Resistance:** Provides extra reinforcement against forced entry on inward-opening doors
- **D-Shaped Staple:** Designed to securely capture and reinforce the staple of a rim lock or cylinder nightlatch
- **Force Distribution:** Strengthens the vulnerable lock area by distributing force across the door frame
- **Durable Construction:** Heavy-duty build with a clean white finish to suit most interiors
- **Versatile Application:** Suitable for both domestic and commercial security upgrades

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
