Product Description

The Asec Metal 'Fire Door Keep Locked' Sign is a high-quality, circular mandatory sign designed to clearly mark fire doors that must remain locked for safety and compliance. Measuring 76mm in diameter, this sign is ideal for commercial, industrial, and residential properties where clear safety signage is required.

Crafted for durability and a professional appearance, this sign is available in multiple options, with a choice of Satin Anodised Aluminium or Satin Stainless Steel finishes. Depending on your selection, the sign has a weight ranging from 52g to 86g. It features pre-drilled holes for secure screw fixing directly onto the door surface.

Please select your preferred finish, weight, and manufacturer reference from the options below to find the perfect match for your door hardware.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
