Specification Summary

Brand	Asec
Product type	Numeral & Sign

Product Description

The Asec Metal Letters are a stylish and durable choice for identifying your home or business premises. Crafted from solid metal, these high-quality 50mm letters are designed to withstand the elements while maintaining their smart appearance.

They feature a classic front-screw fixing method, making them straightforward to install on a variety of wooden doors, gates, and walls. To suit your existing door furniture, these letters are available in two premium finishes: a warm, traditional Polished Brass and a sleek, modern Chrome Plated.

With multiple letter options and finishes available, you can easily select the perfect combination to complete your property's exterior. Please choose your preferred letter, finish, and manufacturer reference from the options below.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
