Product Description

The Asec Metal Numerals are a stylish and durable solution for clearly displaying your house or building number. Crafted with a solid metal construction, these high-quality front-fixing numerals are designed to withstand the elements while maintaining their smart appearance.

Measuring 76mm in height, these numerals offer excellent visibility from the street or driveway. They are available in a choice of premium finishes, including Polished Brass and Chrome Plated, allowing you to match your existing door hardware. With legends ranging from 0 to 9, you can easily select the exact combination you need.

These numerals feature a traditional front screw-fix design for straightforward installation on wooden doors, gates, or walls. Please select your required number, finish, and manufacturer reference from the options below.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
