Specification Summary

Brand	Asec
Product type	Key Ring

Product Description

The Asec Metal Pull Apart Key Ring is a highly practical solution for managing and organising your keys. Supplied on a card of 12 in an assortment of vibrant colours, this pack is ideal for households, offices, or automotive workshops.

Featuring a quick-release mechanism, these key rings allow you to separate your keys instantly with a simple press of the central button. This makes it incredibly easy to detach specific keys when needed - such as handing your car keys over to a garage mechanic, or leaving a house key with a neighbour, without having to hand over your entire keyring. When you are ready to reattach them, simply push the two halves back together until they click securely into place.

Each card contains 12 durable metal pull-apart key rings, with three of each colour: green, red, silver, and blue. This colour-coding makes it simple to identify different sets of keys at a glance.

Technical Specifications

- **Brand:** Asec
- **Manufacturer Reference:** AS334 (Part Number: AS1232)
- **Pack Quantity:** 12 key rings per card
- **Colours Included:** Green, Red, Silver, and Blue (3 of each colour)

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
