Specification Summary

Brand	Asec
Product type	Specialised

Product Description

The Asec Micro Power Lock is a high-quality, compact electronic magnetic lock designed for applications where a small, unobtrusive security solution is required. Despite its modest size, this surface-mounted maglock boasts an impressive holding force of 680kg (1500lbs), providing robust security without dominating the door frame.

Supplied fully assembled with a standard fixing bracket, this unit is specifically designed to suit outward-opening doors. It operates on a dual-voltage system (12V DC or 24V DC) and features a fail-unlocked (fail-safe) operation, ensuring safe egress in the event of a power failure. Additionally, the lock is fully monitored, allowing for seamless integration with access control systems to track the door's status. It is finished in a sleek satin anodised aluminium and is suitable for single doors (please purchase two units if installing on double doors).

Technical Specifications

- **Holding Force:** 680kg (1500lbs)
- **Input Voltage:** 12V / 24V DC (Selectable)
- **Current Consumption:** 0.28A @ 12V / 0.14A @ 24V
- **Operation:** Fail Unlocked (Fail Safe)

- **Monitored:** Yes
- **Fitting:** Surface mounted
- **Fixing:** Standard bracket
- **Handing:** Outward opening
- **Finish:** Satin Anodised Aluminium
- **Magnet Dimensions:** 128mm (L) x 40mm (H) x 26mm (D)
- **Armature Plate Dimensions:** 70mm (W) x 26mm (H) x 12mm (D)
- **Weight:** 680g
- **Guarantee:** 1 Year

Key Features

- **Compact Design:** Ideal for doors requiring a small, unobtrusive, and high-quality lock.
- **High Holding Force:** Delivers a powerful 680kg of resistance despite its modest footprint.
- **Fully Monitored:** Built-in monitoring allows for easy integration with access control and alarm systems.
- **Dual Voltage:** Supports multiple voltages from 12V DC to 24V DC for installation flexibility.
- **Outward Opening:** Specifically designed to suit outward-opening door configurations.
- **Supplied Fully Assembled:** Ready for installation straight out of the box with the included standard bracket.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
