Specification Summary

Brand	Asec
Product type	Lock Out Tag Out

Product Description

The Asec Mini Circuit Breaker Lockout Universal is an essential safety device designed to support effective Lockout Tagout (LOTO) procedures in the workplace. This compact and hard-wearing lockout device helps prevent the accidental or unauthorised energisation of electrical circuits during maintenance and servicing, ensuring a safer working environment for engineers and technicians.

It is exceptionally straightforward to use. Simply turn off the circuit breaker, position the lockout device over the toggle switch, and tighten the internal grub screw to secure it firmly in place. Once positioned, a safety padlock can be fitted through the hasp hole. This blocks access to the grub screw, preventing the lockout from being removed or the switch from being operated until the padlock is safely taken off.

Featuring a highly visible blue finish and a clear "Danger - Do Not Remove - Locked Out" warning label, this universal lockout device provides an immediate visual deterrent. It is a vital addition to any commercial or industrial safety toolkit.

Technical Specifications

- **Brand:** Asec
- **Manufacturer Reference:** AS11854

- **Finish:** Blue
- **Legend:** Danger - Do Not Remove - Locked Out
- **Weight:** 16g
- **Pack Quantity:** 1
- **Barcode:** 5015397469939

Key Features

- **Simple to Use:** Quick installation by turning off the breaker, placing the lockout over the switch, and tightening the internal grub screw.
- **Padlock Compatible:** Features a hasp hole that allows a padlock to be fitted, preventing access to the grub screw and securing the switch.
- **High Visibility:** Bright blue finish with a clear warning label to ensure high visibility and compliance.
- **Durable Construction:** Hard-wearing design suitable for demanding industrial and commercial environments.
- **Universal Fit:** Designed to fit a wide range of miniature circuit breakers.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
