Specification Summary

Brand	Asec
Product type	Nut Fix

Product Description

The Asec MK Nut Fix Camlock is a highly reliable and secure locking solution designed for both metal and timber applications, making it ideal for lockers, cupboards, and cabinets. This 20mm camlock features a robust nut fixing mechanism, ensuring a sturdy and straightforward installation.

Operating with a smooth 180º clockwise movement, the lock is equipped with a 35mm straight cam bar. It is supplied keyed to differ with up to 2,000 potential differs, and is master keyed under the AS6618 master key system. This makes it an excellent choice for commercial or educational environments where individual security is needed alongside master key access.

Constructed with a conical head shape and finished in high-quality chrome plating, this camlock offers both durability and a clean, professional appearance. Each lock is supplied complete with two keys.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
