### Product Description

The Asec Mortice Bathroom Lock is a medium to heavy-duty mortice lock designed specifically for internal residential doors. Certified to EN 12209, this high-quality lock is dimensionally co-ordinated with standard lever locks, making it an ideal choice for both new installations and retrofitting projects.

It features a robust brass deadbolt operated by a 5mm follower, alongside an 8mm lever follower that is perfectly suited for use with sprung lever furniture on an 8mm spindle. The latchbolt is fully reversible, allowing for quick and easy installation on both left and right-handed doors.

This lock is available in multiple case depths and finishes to match your door's hardware. Please choose your preferred depth (64mm or 76mm) and finish (Polished Brass or Stainless Steel) from the options below.

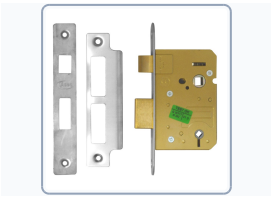

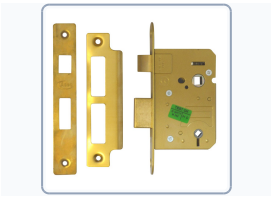

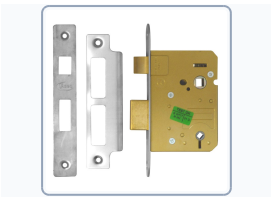

## Technical Specifications

## Brand Profile

Asec

**ASEC** is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
