Specification Summary

Brand	Asec
Product type	Mortice

Product Description

The Asec Mortice and Rim Electric Release is a highly versatile electric strike designed for use on timber doors and frames. Supplied with plates for both mortice and rim applications, it offers a flexible, all-in-one solution for access control installations.

This electric release features an adjustable jaw to ensure precise alignment and easy fitting. Depending on your security and safety requirements, it is available in multiple configurations. You can choose between Fail Locked (fail secure) or Fail Unlocked (fail safe) operations, with input voltages of either 12V AC/DC or 12V DC. Please select your preferred operation, input voltage, and manufacturer reference from the options below to find the perfect match for your system.

Each unit is supplied boxed with both short and long faceplates, providing everything you need for a professional installation. It is finished in a neutral grey and is backed by a 1-year manufacturer's guarantee.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
