Specification Summary

Brand	Asec
Product type	Lock Out Tag Out

Product Description

The Asec Multi-Purpose Cable Lockout Hasp is a highly versatile safety device designed to support group lockout procedures and ensure workplace safety during maintenance or servicing. Equipped with a 2.5-metre nylon-coated steel cable, this lockout hasp allows you to easily secure energy isolation points, valves, or gates in a fixed position.

Its clever design accommodates up to six individual safety padlocks. Once the steel cable is threaded through the equipment and secured back into the hasp, the padlocks can be applied. The cable cannot be released until all six padlocks have been removed, ensuring that no machinery or equipment can be unexpectedly energised or started up while maintenance is still being carried out by any team member.

With an ergonomically designed body and a highly visible red and blue finish, this lockout hasp is easy to operate and identify in busy industrial environments. It is an essential addition to any compliant Lockout Tagout (LOTO) procedure, safeguarding employees from hazardous energy releases.

Technical Specifications

- **Brand:** Asec
- **Manufacturer Reference:** AS11848
- **Cable Length:** 2.5m

- **Cable Material:** Nylon-coated steel
- **Padlock Capacity:** Up to 6 padlocks
- **Finish:** Red & Blue
- **Weight:** 171g
- **Pack Quantity:** 1

Key Features

- **Group Lockout Support:** Holds up to 6 padlocks, ensuring the cable cannot be removed until all padlocks are taken off.
- **Versatile Security:** Ideal for locking out gates, valves, and various machinery or energy isolation points.
- **Durable Construction:** Features a strong 2.5m steel cable with a protective plastic/nylon coating.
- **High Visibility:** Bright red and blue finish ensures the device is easily noticeable in industrial environments.
- **Ergonomic Design:** Easy to handle and apply during safety and maintenance procedures.
- **LOTO Compliance:** Helps safeguard employees from unexpected startup or release of hazardous energy.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
