Specification Summary

Brand	Asec
Product type	Plastic

Product Description

The Asec Narrow Press To Exit Button is a surface-mounted, architrave-style exit switch designed for access control systems where space is limited. Constructed from durable white plastic, this narrow-profile button is ideal for mounting on slim door frames or in restricted areas.

It features a clear, green-engraved "Press To Exit" legend for high visibility. Operating on a momentary action with a single Normally Open (N/O) contact, it provides a reliable press-to-make connection to release electronic locks. Suitable for 12V or 24V DC systems, this low-profile, surface-mounted button is a practical and cost-effective solution for commercial and residential door release applications.

Technical Specifications

- **Brand:** Asec
- **Manufacturer Reference:** AS11756
- **Material:** Plastic
- **Finish:** White
- **Fitting:** Surface mounted
- **Width:** 38mm

- **Depth:** 27mm
- **Input Voltage:** 12/24V DC
- **Operation:** Momentary
- **Outputs:** Normally Open (N/O)
- **Illumination:** No
- **Pack Quantity:** 1

Key Features

- **Narrow Architrave Profile:** Specifically designed for installation on slim door frames and in tight spaces.
- **Clear Green Legend:** Engraved with "Press To Exit" in green for easy identification by users.
- **Durable Plastic Construction:** Hard-wearing white plastic body suitable for everyday use.
- **Momentary Operation:** Features a single Normally Open (N/O) press-to-make contact.
- **Surface Mounted:** Easy to install directly onto the wall or frame surface.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
