Specification Summary

Brand	Asec
Product type	Plastic

Product Description

The Asec Narrow Style Momentary Exit Switch is a compact, surface-mounted press-to-exit button designed specifically for installations where space is limited. With its slim architrave profile, this exit switch is ideal for mounting on door frames, narrow barriers, or restricted wall spaces in commercial and residential access control setups.

Constructed with a clean white finish, the switch features a highly visible green "Door Release" legend engraved on the front, ensuring clear guidance for users. It operates on a momentary basis, meaning it triggers upon being pressed and immediately resets once released.

For maximum compatibility with different security and door entry systems, the switch is equipped with both Normally Open (N/O - press to make) and Normally Closed (N/C - press to break) contacts. Operating on a standard 12/24V DC input voltage, this reliable and durable plastic exit button is a practical and cost-effective solution for any low-profile door release application.

Technical Specifications

- **Brand:** Asec
- **Manufacturer Reference:** AS8007
- **Width:** 32mm
- **Depth:** 18mm
- **Finish:** White
- **Fitting:** Surface mounted
- **Operation:** Momentary
- **Input Voltage:** 12/24V DC
- **Outputs:** Normally Open (N/O) & Normally Closed (N/C)
- **Illumination:** No
- **Weight:** 95g

Key Features

- **Narrow Architrave Profile:** Slim design is ideal for installation on door frames and in restricted spaces.
- **Dual Contacts:** Features both Normally Open (N/O - press to make) and Normally Closed (N/C - press to break) contacts for versatile system integration.
- **Clear Green Legend:** Engraved with a highly visible green "Door Release" legend for easy user identification.
- **Surface Mounted:** Easy to install directly onto flat surfaces without the need for flush mounting boxes.
- **Momentary Operation:** Switch triggers instantly when pressed and resets immediately upon release.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
