Product type	Polished Gold Effect

Product Description

The Asec 'No Smoking' self-adhesive sign is a stylish, polished gold effect mini sign designed for professional and commercial environments. Measuring 200mm x 50mm, this compact sign is the ideal solution for areas where space is limited, or where larger, standard safety signs would look unsightly or out of place.

Featuring a contemporary, mirror-like finish, it blends seamlessly into modern offices, hotels, restaurants, and other commercial establishments. Made from durable, semi-rigid PVC, it comes with a strong self-adhesive backing for quick and easy installation on flat, clean surfaces without the need for screws or drilling.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
