Specification Summary

Brand	Asec
Product type	Lock Out Tag Out

Product Description

The Asec Nonconductive Lockout Tagout Hasp is designed to provide safe and secure isolation in electrical or hazardous environments. Manufactured from strong yet flexible reinforced nylon, this non-conductive hasp is ideal for difficult-to-reach or narrow spaces, as it can be easily manipulated into the required position.

This lockout hasp features a 6mm thread thickness and an 80mm vertical clearance. It is designed to accommodate up to 6 individual padlocks with a maximum shackle diameter of 9mm, making it an excellent choice for multi-person lockout procedures.

Technical Specifications

- **Brand:** Asec
- **Manufacturer Reference:** AS11504
- **Material:** Reinforced Nylon
- **Finish:** Red
- **Thread Thickness:** 6mm
- **Vertical Clearance:** 80mm

- **Maximum Shackle Diameter:** 9mm
- **Padlock Capacity:** Up to 6 padlocks
- **Weight:** 30g

Key Features

- **Non-Conductive Construction:** Made from reinforced nylon, making it highly suitable for electrical lockout applications.
- **Flexible and Durable:** Strong yet flexible material allows it to be easily manipulated into tight or awkward spaces.
- **Multi-User Lockout:** Accepts up to 6 padlocks, ensuring equipment remains isolated until all workers have completed their tasks.
- **Compact and Lightweight:** Weighs only 30g, offering a lightweight yet robust safety solution.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
